

## **NEWS RELEASE**

### **Ocumetrics To Participate in the 2025 Maxim Growth Summit**

#### **For Immediate Release**

**Calgary, Alberta – October 21, 2025** - Ocumetrics Technology Corp. ("Ocumetrics" or the "Company") (TSXV: OTC) (OTCQB: OTCFF) (FRA: 2QBO), a leader in advanced ophthalmic technology, is pleased to announce its participation in the upcoming 2025 Maxim Growth Summit, taking place from October 22nd to 23rd at The Hard Rock Hotel, NYC. This prestigious event brings together industry leaders, innovators, and premier institutions to explore the latest trends and advancements across several industries.

Dean Burns, President and CEO of Ocumetrics, will be participating in a panel titled 'A vision of Innovation' and moderated by Maxim Research Analysts. In addition, Ocumetrics will be meeting with institutional investors in a one-on-one format during the event.

Keynote speakers include Larry Kudlow (Broadcaster, Fox News) and Christopher Ruddy (CEO, Newsmax Media). The conference will also feature roundtable discussions with CEOs from small- and mid-cap companies, moderated by Maxim Research Analysts. Roundtable discussions will cover a range of topics, including biotechnology, stem cell therapy, ophthalmology, artificial intelligence, energy and mining, drones, and more.

#### **About Ocumetrics**

Ocumetrics Technology Corp. (TSXV: OTC) (OTCQB: OTCFF) (FRA: 2QBO) is a Canadian research and product development company that is dedicated to developing advanced vision correction solutions that enhance the quality of life for patients. Through innovative research and development, Ocumetrics aims to transform the field of ophthalmology with state-of-the-art intraocular lenses and other vision-enhancing technologies.

Ocumetics is in the first-in-human early feasibility study phase of a game-changing technology for the ophthalmic industry. Ocumetics has developed an intraocular lens that fits within the natural lens compartment of the eye, potentially to eliminate the need for corrective lenses. It is designed to allow the eye's natural muscle activity to shift focus from distance to near, providing clear vision at all distances without the help of glasses or contact lenses.

**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION:** This news release includes certain "forward-looking statements" under applicable Canadian securities legislation. Forward-looking statements include, but are not limited to, statements with respect to the commencement, timing and scope of the research and development to be conducted by the Corporation mentioned above. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable, are subject to known and unknown risks, uncertainties, and other factors which may cause the actual results and future events to differ materially from those expressed or implied by such forward-looking statements. Such factors include but are not limited to: operational matters, historical trends, current conditions and expected future developments, access to financing as well as other considerations that are believed to be appropriate in the circumstances. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The Corporation disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
